

INCOMING FIRST YEAR & TRANSFER MATRICULATED FALL STUDENTS ONLY

How to Enroll for a Summer Session Course

Welcome to The College of New Jersey! If you are interested to enroll in a summer course, but have been accepted by TCNJ to start in the fall (matriculated for the fall), you will need to proceed with the following instructions below:

1. Please provide us the name of your major* by emailing us at summer@tcnj.edu.
**Undeclared majors included*
2. Once we receive your email with your major, we will provide you the contact information of the Program Assistant of your major's department for you to seek advisement and approval of the course you intend to take this summer.
3. Please forward the email correspondence with your Program Assistant's advisement/approval to summer@tcnj.edu.

After steps 1-3 are completed, the Office of Summer and Winter Programs will work with Records and Registration to create a Non-Matric program and term activation for summer. We will then enroll you in the summer class and provide you with a confirmation email. We will also work with Student Accounts to waive the student summer visiting fee.

PLEASE TAKE NOTE!

Make sure you review and understand the summer tuition fees that apply to you. For example, if you are an incoming out-of-state student matriculating in the fall taking a 1 unit course, please view the tuition for that specification.

Click [here](#) to view the most recent tuition & fees for summer.

We hope you have a great and safe summer!
